Junior Triple Crown 2022:

Bowlers must play in a minimum of **5** of the currently scheduled **6** events, including the National Youth Championships. The total accumulated ranking points based on the 'Best 5' tournaments will be used to determine eligibility after the 6 tournaments to select the panel. If any tournaments cannot proceed, the total accumulated ranking points based on the number of tournaments played will be used to select the panel.

EYC 2022:

Due to the government restrictions as a result of Covid-19 the qualifying criteria for EYC2022 is limited to 2 tournaments. The averages for EYC Panel eligibility are set at: **Girls: 170 Boys: 180**. The junior bowler averages after the 2 scheduled tournaments will be used as the basis of eligibility towards meeting the EYC average. Please note that an exception has been applied to the qualifying criteria for EYC 2022, so the requirement to play in the National Championships has been removed due to the cancellation of the 2021 tournament.

The Executive Committee in consultation with Junior subcommittee have agreed to waive the average for EYC 2022 due to covid 19 restrictions as only 2 tournaments can be played. However, bowlers must play in both tournaments and must commit to training and prove they are committed to the panel. The average of 170 for girls and 180 for boys will be re-instated for EYC 2023.

Bowlers, wishing to represent Ireland on National Teams, including EYC (and all other European, Triple Crown and World Team events) will be required to formally sign-up to the ITBA National Development Programme (NDP); will be required to participate in the development and training sessions run jointly by the Junior Sub-committee and assigned ITBA certified coaches; and will be required to meet the criteria laid down for the event, unless a 'Wildcard' selection is made.

Wildcards:

Wildcard - Bowlers outside the panel selection or who have not met the required average (EYC), who feel they may be eligible for a Wildcard may make a written application to the Junior Selection Committee stating their case and why they feel they are deserving of a place on the Panel. The Junior Selection Committee will make a decision based on the merits of this application. All applications will be reviewed fairly and objectively with the ultimate mission of achieving the best and strongest Junior Team possible. Applications for a Wildcard must be submitted to juniors@tenpinbowling.ie and will be forwarded to the Junior Selection Committee.

Alternatively, if the Junior Selection Committee feel that a junior bowler may be eligible for / deserving of / benefit from a Wildcard selection, they may recommend for ratification a junior bowler as part of the Panel. All recommendations will be made with the ultimate mission of achieving the best and strongest Junior Team possible.

There is no requirement for the Wildcard spot(s) to be filled or any guarantee of an application being approved even if those spot(s) are not filled.

Reasons for a Wildcard can include, but are not limited to:

- A bowler has competed in an overseas tournament and was unable to meet some of the requirements in the criteria.
- A bowler returning from injury and has displayed their quality in tournaments / leagues since their return.
- Any issues or circumstances outside of a bowlers control that specifically limits the bowlers participation in the required number of tournaments or meeting the required average.

ANTI-DOPING

The ITBA – www.tenpinbowling.ie, World Bowling – www.worldbowling.org and Sport Ireland www.sportireland.ie are all committed to providing a clean sport and a stage upon where athletes can compete in fairness. The use of doping substances or doping methods to enhance performance is fundamentally wrong and is detrimental to the overall impact of bowling. Drug misuse can be harmful to an athlete's health and also indirectly impact other athletes competing in bowling. To ensure integrity of the sport of bowling, the ITBA is fully signed-up to World Bowling and Sport Ireland's National Programme and will enforce the World Anti-Doping Code developed by the World Anti-Doping Agency (WADA) - www.wada-ama.org/en.

WHAT IS DOPING:

Doping is defined as the occurrence of one or more of the following anti-doping rule violations:

- Presence of a prohibited substance (such as steroids, stimulants, hormones, diuretics or narcotics) in an athlete's sample.
- Possession, trafficking, use or attempted use of a prohibited substance or method (such as blood transfusions or gene doping).
- Refusing to submit to sample collection.
- Failure to file whereabouts information and missed tests.
- Tampering with any part of the doping control process.
- Administering or attempting to administer a prohibited substance or method to an athlete.

AS AN ATHLETE, WHAT DO YOU NEED TO KNOW ABOUT DOPING?

Any athlete may be tested in- and out-of-competition at anytime, anywhere and with no advance notice. The principle of strict liability applies in anti-doping – if it is in the athlete's body, the athlete is responsible for it.

Athletes' responsibilities include (but are not limited to):

- complying with the Sport Ireland's Anti-Doping Rules in line with the World Anti-Doping Code;
- being available for sample collection (urine or blood), whether in-competition or out-of-competition;
- ensuring that no prohibited substance enters his body and that no prohibited method is used;
- making sure that any treatment is not prohibited according to the Prohibited List in force and checking this with the prescribing physicians, or directly with the Sport Ireland if necessary;
- applying to the Sport Ireland if no alternative permitted treatment is possible and a Therapeutic Use Exemption (TUE) is required (see the Sport Ireland TUE application process)

Every athlete needs to take into account the list of prohibited substances and know what are his/her rights and responsibilities under the World Anti-Doping Code and the IF anti-doping rules. Athletes should know that, under the Code, they are strictly liable whenever a prohibited substance is found in their body. This means that a violation occurs whether or not the athlete intentionally, knowingly or unknowingly, used a prohibited substance or was negligent or otherwise at fault.

The World Anti-Doping Code (Code) is the core document that provides the framework for harmonized antidoping policies, rules and regulations within sport organizations and among public authorities. It works in conjunction with five International Standards aimed at bringing harmonization among anti-doping organisations in various areas: testing, laboratories, Therapeutic Use Exemptions (TUEs), protection of privacy and personal information, and the List of Prohibited Substances and Methods. The Code and the Standards are mandatory documents for WADA's stakeholders. These documents are supported by non-mandatory guidelines.

The ITBA Anti-Doping Officer Anti-Doping Update for the AGM, pointed out the ITBA following:

"I attended the Sport Ireland 2017 Anti-Doping Annual Review which was held in March. Great emphasis was placed on the increasing use of nutritional supplements by Irish athletes. These supplements can pose risks to athletes as many can contain prohibited substances and if the packaging does not have a Marketing Authorisation number it cannot be checked."

The **Sport Ireland Wallet Cards** have previously been circulated. In the Anti-Doping Update for the AGM, the ITBA Anti-Doping Officer stressed:

*“It is imperative that all bowlers familiarise themselves with its contents. The Wallet Card is designed as a brief overview and a lot more information on all aspects of Anti-Doping can be found on the Sport Ireland website – www.sportireland.ie/antidoping.” This includes links to **“Report Doping”** (link also on ITBA website), **“Supplement Policy”** and **“Check your Medication”** link to www.eirpharm.com if in any doubt about any medication you are taking”*

The Sport Ireland “REPORT DOPING” intelligence programme is a vital part of the Anti-Doping programme and seeks to collect any information that will assist in the detection, deterrence, enforcement or prevention of an Anti-Doping Rule Violation (ADRV). ADRVs include use and attempted use of prohibited substances in sport, but also extend to administration of a prohibited substance, possession and trafficking in prohibited substances. Those who are most at risk of an ADRV are competitive athletes and support personnel (including Coaches) involved with competitive athletes. In the Anti-Doping Update for the AGM 2018, the ITBA Anti-Doping Officer highlighted:

“I would particularly remind bowlers participating in European Tenpin Bowling Federation or World Bowling events that they should check that any medication being taken is not on the Prohibited List as published by WADA – see www.wada-ama.org/en .”

In summary, bowlers should remember, that under the Code, they are strictly liable whenever a prohibited substance is found in their body. This means that a violation occurs whether or not a bowler intentionally, knowingly or unknowingly, used a prohibited substance or was negligent or otherwise at fault.

So, let’s continue to be fully aware of our responsibilities and let’s continue to keep Irish Tenpin Bowling drug free.
